

⚡ Jade

Welcome to Jade!

Ready to make your Crystal Installation... ready?

No...

YEAH!

Let's get you started, shall we?

Whats your current timezone?

-
-
-
-
-
-
-

{add some time zone selector}
end it 67 above the window end

Next question: keyboard layout

What is it? Huh?

{add keyboard layout selector}
end it 67 pixels above the

-
-

Create your user

You can add more in the settings on the installed system

Enable sudo for user

Enable Root user

Confirm

Okay, now, what desktop environment do you want?

(btw this is kinda important so you might want to focus)
You can install more DEs later

- Onyx [Continue](#)
- GNOME [Continue](#)
- KDE [Continue](#)
- Budgie [Continue](#)
- Mate [Continue](#)
- Enlightenment [Continue](#)
- XFCE [Continue](#)
- None/DIY [Continue](#)

Miscellaneous

(Our designer is dyslexic)

-
-
-
-
-
-
-

🔍 Hostname ✕

- Enable IPv6
- Enable Timeshift
- Enable Crystal theming

Confirm

Now select a disk you want to install Crystal on

You don't want to skip this part

-
-
-
-
-
-
-

/dev/sda

Continue

/dev/sdb

Continue

/dev

Continue

I'll partition myself

Continue

Last chance to edit

8
