Select your own
ISO file

opens the
file
manager

Continue

Opal

Select your device

-  %device name & size **Select**
-  %device name & size **Select**
-  %device name & size **Select**
-  %device name & size **Select**
-  %device name & size **Select**

Continue allow flashing to multiple

Opal

Select your device

Are you sure you want to do this?
This will erase ALL data on the device

Cancel

Do It

 %device name & size

Select

Continue

allow
flashing
to
multiple

Opal

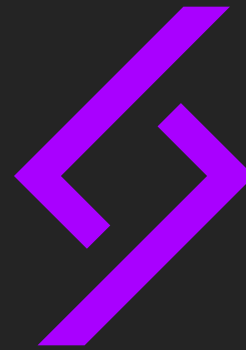

Wait a second then

Insert a gif from
cat API here
the size of this rectangle

some progress bar

here
Continue

Opal

We're done!

You can now enjoy your freshly baked
Crystal Linux USB

Don't recommend eating it tho
